Flexible IT Solutions for your Business Needs

Our portfolio of solutions is designed to help businesses optimize efficiencies, streamline & consolidate processes, reduce IT complexity, and save money.

- **Storage Solutions** - Provides a wide variety of storage offerings designed to help businesses effectively balance capacity, performance & reliability requirements with a solution that fits their budget.

EFN Enterprises Professional Services – Offers a wide variety of IT Services such as the following:

- **Disaster Recovery** – Protect your data and mission-critical applications from primary site failures, whether it is site, system, application, or operating system-related.
- **Virtualization** – Simplify management processes, and dynamically allocate computing and storage resources across heterogeneous IT infrastructures.
- **Business Continuity** – Achieve continuous availability and access to critical enterprise information and business processes.
- **Unified Communication** – Offer a wide variety of hardware and software solutions for high-resolution, real-time multimedia communications between geographically dispersed locations (Collaboration and TelePresence).
- **Digital Asset Management** – Maximize the value of your rich media assets. DAM systems allow you to digitize and integrate video, documents, animations, and images into your production workflow.
- **Content Management** – Centralize unstructured digital content and assets, and makes them accessible, searchable and browseable.
- **Document Imaging & Management** – Robust, inexpensive and powerful document imaging and management solutions.

Simplifying IT

Commercial and Government Solutions:

- **High-Performance Server** - Offers HP, SUN and Dell server for your midrange and large computing needs through our partners. We are an IBM Advanced Business Partner and an authorized VAR for SGI and Apple / Mac platforms.
- **Risk Management Solutions** - EDMT™ Solution is unique because it is the only product on the market designed to offer real-time capture and storage of Emails, Documents, Multimedia and Transactions (EDMT) data (with metadata) into a single repository. As a result, EFN's EDMT™ Solution provides real-time access, search and analysis of all data to provide a complete, comprehensive view of the business, irrespective of data type and source for real time analytics. Consolidating (EDMT) for Business Intelligence (BI) Analysis, E-Discovery, Compliance and Risk Management Integration.
- **Logistic Outsourcing** – Logistic Placement Services can place personnel within your company to assist your organization in optimizing your Analytical Processes, ERP, Data Base, Business Management and Business Intelligence requirements with the following staffing personnel.
- **Data Base Management Solutions** – Has expertise in designing and implementing end to end Business Intelligence and Data Warehousing solutions! We specialize in BI technologies and solutions from Actuate, Business Object, Cognos, IBM, Ingres, Microsoft, MicroStrategy, Oracle and Sybase.
- **Computing Infrastructure (Cloud Computing)** – Already successful and widely used in many scientific computing environments where supercomputing power is required, clustering and Cloud computing technology is becoming more accessible and advantageous for many business workloads.
- **Customer Services and System Support** – EFN's Customer Services and System Support provides Onsite Services, Project Management, Design, Implementation, and Integration Services.

About EFN & Associates, Inc

Is a leading Information Technology (IT) reseller with over 55 years experience in the Federal and Commercial space. As a company we focus exclusively on solving IT problems within the University, Healthcare, Manufacturing, Automotive, Aerospace, Commercial and Government marketplaces.

Information Technology Staffing

Delivers highly effective IT Services. Our purpose-built solutions provide our customers with the total systems capabilities and workflow they need to quickly respond to changes within their day to day operations. EFN Enterprises is dedicated to providing the most effective products and services for our customers.

Third Party Maintenance

Our partners have an average of 10 years of industry experience. Our Support Engineers receive continuous training on the latest hardware and software enhancements. Additionally, nearly 50% of EFN's Partners delivery personnel with United States (US) Government security clearances which may be a requirement to support customers in the US or other foreign government and or military.
